

# Quick Reference for Electronic Download

(Internet connection and a browser required)

**IMPORTANT NOTE:** If PC\*MILER is already installed, please check that you have the latest updates before installing additional components. Open PC\*MILER and select the Help tab > *Check for Updates*. If you need help with updating, click the Help button in the dialog. 

1. After purchasing and licensing your PC\*MILER product, you will receive an email with the subject line "PC\*MILER (XX) Software Order #...". You may see one or more download links (depending on what was purchased) at the bottom of this email. Each link enables you to download a self-extracting .zip file.
2. Begin by clicking the topmost link. A web page will open and you will be prompted to open or save the zip file. Click **Save** and select a folder where you want to save the zip file.
3. The download will begin. A very small progress bar in the upper right corner of the web page will track the progress of the download. The progress bar will disappear when the download is finished.
4. If there are additional download links in the email, repeat Steps 2-3 for each link.
5. Now navigate to the folder where you saved the zip file(s). If you purchased the base PC\*MILER application plus one or more add-ons, install the base product first – the file name will include "main-install". Run one setup.exe at a time, **do not** run the setup.exe from multiple folders simultaneously.
6. Click **Extract** at the top of the window that opens to extract the contents of the zip file to a separate folder in the same location. The progress of the extraction will be tracked at the bottom of the window.
7. When the extraction is complete, open the extracted folder and run the **setup.exe** as follows: **For Windows 7** users, right click the setup.exe and select "Run as administrator". **For other operating systems**, just double-click the setup.exe.
8. The InstallShield Wizard will guide you through the rest of the installation. For detailed installation instructions and technical support information, go to <http://www.pcmiler.com/support>. Click "User Guides" to access the PC\*MILER *User's Guide*.
9. As a last step, after you fully license and install PC\*MILER, please download and install all available data and software updates. This is an important step if you purchased **PC\*MILER|Worldwide**, **PC\*MILER|DTOD Data**, **PC\*MILER|Energy**, **PC\*MILER|Streets** and/or **PC\*MILER|Tolls**. To do so, open PC\*MILER then go to the Help tab > Windows group > *Check for Updates* and install all updates available.
