## Version 30 Feature Reference Guide

For users of Version 29 or a previous version of PC\*MILER, this *Feature Reference Guide* is provided to get you up and running quickly with Version 30. Use it to look up the new way to access options that are already familiar to you using the redesigned Application Settings, Route Options and Route Profiles features.

Search for Version 29 option names in the **Options by Location** table below or the **Alphabetical List of Options** beginning on page 4. Please refer to the Version 30 *PC\*MILER User's Guide* for detailed descriptions of the options mentioned here.

### Options by Location

In PC*MILER Version 29		Where to Find in PC*MILER Version 30
